Provincial Correspondence states that a separate Minister for Catholic Affairs has been done away with and that its abolition is due to difficulties originating in decisions of the late Ecumenical Council.

French Affairs.

PARIS, July 28.—It is said, President Thiers has induced Bismarck to consent to the evacuation of Paris forts still occupied by German troops and the entire departments of Seine and Seine et Oise, on or before the 31st August.

Many Communist prisoners who were sent to different French forts have been released.

It is rumored that Cardinal Antonelli has summoned Bishop Dupanloup to Rome.

Debats censures the Government for siding with the minority and demands a ministerial change. The Court-martial has adjourned.

The cholera, typhus plague and famine are still raging in Persia, and cannibalism is confirmed. The Governor of Shiraz has placed a guard at the cemeteries to prevent the unfortunates from disinterring the dead. The British embassy and telegraphists have fled. Previous accounts are unexaggerated.

EASTERN STATES.

New York News.

NEW YORK, July 28.—Land grant bonds of the Kansas Pacific railroad company, with coupons of July 1st, 1877, attached numbers 301 to 360 inclusive, of $500 each; 250 to 280 inclusive of $500 each, 301 to 400 inclusive of $250 each and 451 to 500 inclusive of $250 each were stolen from the U. S. Express Co., at St. Louis, July 25th. The public are cautioned against negotiating for the same.

The Brooklyn *Union* says: "We have the highest authority for saying that a prominent member of the Tammany ring called upon the principal proprietor of the New York *Times* a week or two since and made a startling offer for the copyright of that paper. He was told there was not enough money in New York city to buy the *Times*." A day or two after a Tammany Republican called on the same gentleman and offered $1,000,000 on the part of the Ring if that paper would keep silence concerning frauds it is unearthing.

The new city loan for construction of docks and piers in this City is successfully negotiated. The loan has been taken up by the International Bank of Hamburg and London. Commissioners have already commenced to draw on this fund.

There was a meeting of the Temperance Alliance to-day. The merits of several candidates for Governor were discussed. Rev. Dr. Marvin said he had conferred with Gen. Butler, who would soon publish a manifesto wherein he would plant himself firmly on the prohibitory platform, and in case of his nomination and election if Boston cast her vote against him he would make the city as hot for rumsellers as he had made New Orleans for rebels. There was a disposition to endorse the General on the spot but the Alliance finally decided to await his written pledge.

New York City Affairs.

NEW YORK, July 28.—Mayor Hall stated today that the Controller is now engaged in having the accounts of his Department, including expenditures, published in detail. The accounts are to show that bills which have called forth censure by one of the morning papers, were approved and audited by the old Board of Supervisors which represented the Republican and Democratic parties. The Mayor says all the accounts are in the hands of the printers and would have been published in connection with his message if they were not too large to be embodied in it.

Drew and a few men at the post with a few laborers made a gallant fight and killed and wounded several Indians, but at latest accounts had recovered none of the stock.

SATURDAY MORNING, JULY 29, 1871.

International Workingmen's Association.

A powerful organization bearing this name is known to exist in nearly all the countries of Europe. It is especially strong in Germany, France and England. In news dispatches from Europe this organization and its doings have often of late been mentioned. Facts are coming to light which show that it is dreaded by the Governments of Europe, and that its power is very great. During the recent insurrection in Paris the Communists issued a circular ascribing the outbreak and conduct of the Commune to this powerful organization. Bismarck also recently denounced it, and refused to allow a certain person to be appointed Consul, to reside in Germany for the reason that he was a member of it. It is said that the association took its rise in London in 1863. It spread to France and then to Germany. In 1865 a conference was held in London, which was attended by delegates from several countries. A year later and the first Congress of the Society was held at Geneva, in Switzerland, at which about sixty delegates were present. The deliberations of this Congress had reference to international combination and effort in the struggle between labor and capital; limitation of the hours of labor; juvenile labor; and trades unions. The first practical result attending this organization was developed in France, in 1867, in the strike of the workers in bronze. The men were supported by the International Association during the strike. So in England, it prevented employers who locked out their workmen from securing others on the Continent, but this movement resulted in the equalization of wages as between England and the Continent, which benefitted English manufacturers. The second Congress of the organization was held in Lausanne, Switzerland, in 1867, a more perfect union organized, and the purpose developed of "uniting Proletarians of all countries." Reports from this country were received at this Congress, and the influence of the Association extended here. In the spring of 1868 the French Government prosecuted the Association in France, and broke it up, but in Switzerland the members gained several advantages by means of a strike, in which they were supported by the Association.

The Congress of the association in 1868 was held at Brussels. At this meeting it began to discuss political questions, and denounced Bismarck's territorial acquisitions. It also developed a general sentiment of hostility toward established governments, and showed that "communist" principles were its real aim. A great Congress was appointed to be held in Paris in 1870, but this meeting was prevented by the war.

It would seem from the general course of the association that it includes in its ranks the turbulent and revolutionary classes of those countries where it has a hold, and that its general object is social and political agitation. Formed of the restless elements of communities it is ready for any opportunity for insurrection, and is considered to be the banded Communism of Europe.

Work of Carlyle.

We have usually found the *Democratic Era* of East Portland to be a fair newspaper. Yet in its issue yesterday it said:

"When all was counted up, July 31, 1865, the (national) debt was $2,755,995,275; on which the total interest charge was nearly $152,000,000. Since the close of Lincoln's administration, little, if any, decrease has been made in the public debt, notwithstanding the desperate efforts made by the Treasury Department to prove the contrary; nor will there be until the present army of Government leeches is wiped out."

The *Era* should be above making such uncandid and unfounded statements as this. The debt on the first of the present month was $2,392,030,834, showing a reduction since July 31, 1865, of $463,964,431. For this showing there is official authority, which is full, explicit and beyond cavil. The monthly statements are often assailed by disingenuous writers who care nothing for a truthful reputation, but they never have been disproved and never can be. In a paper like the *Era* more candor and a greater regard for maintaining a reputation for reliability was reasonably looked for.

No journal in the United States at this moment stands higher in public esteem than the New York *Times*. This great newspaper has won golden opinions by the vigor, courage and persistency of its attacks on the Tammany gang. It assails them with tremendous power, and grants them no truce or respite. It is about the only journal which this gang of political pirates really fear, and they have frequently tried but tried in vain, to silence it. They have repeatedly attempted to coerce it by threats and have often tried to buy it with money, but have as often failed. Day after day it pursues them relentlessly, and exposes to the country their systematic villainy. For this it is winning the gratitude of the country and gaining a position in journalism which few papers have ever been able to attain. The real problem which now most concerns the country is the suppression of the Tammany gang, and the *Times* by its able leadership in this movement occupies a commanding and most important position. The *Times* does not let its readers forget that this infamous gang leads and controls the Democratic party of the United States, and that the triumph of that party next year would be the triumph of Tammany.

Speaking of President Grant's recent statement that he intends to recommend to Congress to take off forty millions more of taxes, the Oregon City *Enterprise* says this is "buncombe"; that "there is no danger that Congress will make any reduction at all." Not if it depends on the Democratic members. The last Congress, we remember, took off eighty millions of taxes, but the Democrats in that body voted solid against it. They wanted to keep the taxes up to the highest possible point, and then go before the people, complaining of the burdens of taxation, and charging that the Republicans, though having a great majority in Congress, had failed to make a reduction. But in spite of a solid Democratic vote, against it the Republicans reduced the taxes to the amount of eighty millions, and will still further reduce them at the next session.

The Democratic paper at Oregon City again affirms its opposition to the "new departure," takes the *Herald* to task for accepting it and quotes that paper against itself, in a very effective style. The Albany *Democrat* of this week also manifests its disgust once more at the new movement. On the whole, the Democratic press of Oregon still resolutely refuse to "depart." Next year, however, when their national convention makes them swallow the dose they will do it without a wry face and swear they like it and always did like it.

Please Recapitulate.

A degree of stupidity is manifested in the blunders of the *Herald* which, in any other paper, would be really marvellous. We quote from that paper the following:

> The New York *World*, of the 9th inst. says that on Tuesday morning last President Grant came on the *New Jersey Railway to New York* without a ticket. When a conductor approached to ask for the ticket, a gentleman whispered: "That is the President." "I cannot help that," replied the conductor; "my orders are positive." The last time that President Grant came over this road a conductor was removed for passing him without orders. I must obey orders." Upon which the President paid the full fare for his journey, with an additional penalty of ten cents for neglecting to buy his ticket in advance. We hope the OREGONIAN will do the justice to its readers to publish the substance of the above.

We publish it with pleasure. And now will the *Herald* do the justice to its readers to publish the substance of the following from the Springfield (Mass.) *Republican*, an anti-Grant paper? Our neighbor will thereby show its readers how grossly it has blundered and what a fool it has made of itself:

> The enemies of Gen. Grant are doing more just now to secure his re-election than his friends. When his opponents are reduced to the necessity of telling such stupid lies about him, as that he attempted to pass over the New Jersey railroad last week without paying his fare, and was compelled to pay on a threat of the conductor to put him off,—when, we say, his detractors are reduced to that strait, it is sure evidence to the minds of a great many people that there is no real fault to be found with him, and they will first sympathize with and then vote for him. Of course the lie is always exposed in time, and the exposition come swiftly in this case. The story was published in a New York paper on Sunday, and Monday the President of the road pronounced it a sheer fabrication. Gen. Grant has not traveled on the road lately, and, besides, the New Jersey railroad has, generally, since President Jackson's time, tendered a free pass to the President of the United States and the Governor of New Jersey.

Narrow Gauge Engines.

The Baldwin Locomotive Works of Philadelphia are now building some narrow gauge locomotives for the Denver and Rio Grande railroad, on the new principle of the very narrow three foot gauge. The first of these engines has just been completed, and is now at their works, from whence it will be forwarded in a few days to its final destination. It is called the Montana, and is the first locomotive of narrow gauge for general passenger or freight service ever built in the country. Its completion signalizes the "new departure" in railway practice, and consequently great interest is naturally attached to it. The Philadelphia *Evening Telegraph* thus describes the engine:

> The engine is six-wheeled, four of the wheels forty inches in diameter, being coupled as drivers, and one pair of leading wheels in front having a swing bolster and radius bar, forming what is known as a "pony truck." This arrangement enables the engine to pass short curves readily, as the rigid wheel base is only six feet three inches. The general plan is similar to that of ordinary full gauge locomotives. The cylinders are outside and placed horizontally, and are nine inches in diameter by sixteen inches stroke. Its total weight in running order is 25,300 pounds, of which 20,500 are carried on the four driving wheels, and so are available for adhesion. A four wheeled tender, having a capacity of 500 gallons and coal capacity of about one and one-half ton, is attached.
>
> The proportion of driving wheels relative to the stroke of piston admits of a speed of 30 or 40 miles an hour, with a facility equal to that on the full gauge.
>
> In addition to this, two other locomotives of the same gauge are now finishing for the same road, which are intended for freight service exclusively. They have each three pairs of drivers and a pony truck.
>
> As an evidence of the great interest now prevailing on the narrow gauge question, as well as of the great business connections and prominent standing of this Philadelphia manufacturing firm, this establishment holds contracts to furnish locomotives for quite a number of narrow gauge roads, both in this country and Canada. The firm also receives per every mail letters and inquiries for information on the subject from all parts of the United States, from Mexico, from the British possessions, from South America, and from Americans residing in India and China.

A Discovery.

A French writer, M. Gautier, has discovered the cause of the misfortunes of France. He attributes them to the vicious system of education in vogue. No one disputes that Frenchmen are clever, but they try to substitute their cleverness for the work which is alone effectual. M. Gautier says: "We are the most amiable and indolent of nations." The ignorance of French officers, he declares, is indescribably great. The life in the garrisons very quickly extinguished the fire of young officers fresh from the schools. Learning and work were held in contempt. The complete ignorance of the geography of their own country by French officers, and the full knowledge of it by Germans, have been remarked upon many times. Having cited this and numerous other instances of French folly M. Gautier says:

> If we do not reform our university system we are lost. In her universities lies German strength and the secret of her triumphs." We must have twenty universities in France. We must get rid of many abuses, the most dangerous of which is that mania for fine speaking which is so much in fashion at the College de France and the Sorbonne. Lecturers in France are merely exhibitions of eloquence. The professor wishes for a brilliant circle of hearers of both sexes, and arranges his lectures accordingly. If he is not so fortunate as to see ladies sit at his feet, he touches on the political opinions of the young men who hear him. This is very pleasant and clever, but it is of no use. The students leave the lecture room as ignorant as they are delighted.

THE TERRITORIES.

It is rumored that M. S. Drew has resigned the office of Collector of Customs at Puget Sound.

A man named George Floyd was drowned in the north fork of the Payette river, Idaho, on the 29th June.

Several years ago a land office was established at Lewiston, Idaho. There is a Register but no *Register*, and no business can be done. No business has ever been transacted at the office, and the Lewiston paper is indignant.

From the Olympia *Tribune*: A report having obtained currency that the Receiver's office is closed, pending an inspection by an agent of the Treasury Department, we are requested to state that there is not truth in the rumor. There has been no interruption to the regular business of the office, which is and will be continued as heretofore.

CALIFORNIA ITEMS.

Some Chinamen offered $35,000 for a mining claim on Humbug, near Yreka, a few weeks ago, but desired to pay by installments, which caused a refusal of the offer. Other parties now after it also, but it will not be sold at a less figure than $35,000 cash down.

A party of surveyors for the Central Pacific Railroad Company have commenced preparations for another survey of the railroad route through Shasta valley. It is believed they are now laying out the permanent route, which will run down Shasta river, on the opposite side of the hill east of town, and proceeding along the valley about two miles east of the Little Shasta bridge, or about eight or ten miles east of Yreka.

On the morning after Tammany's infamous surrender, the New York papers gave whole pages to angry protests from the people. Democrats wrote abjuring their connection with the party, merchants wrote offering to join a citizen's body-guard for the Orange men, officers of the police and militia denounced the cowardice of the authorities, and all protested against the shameful clique which could barter the liberties of American citizens.

The San Francisco *Chronicle* gives a series of caricatures on the Democratic gubernatorial candidate, which are comically suggestive. One represents the holy, heavenly Haight, mourning his action on the lottery bill, illigant lots, and his death bed repentance of vetoing only two subsidy bills after signing eighteen outrageous railroad bills.

DR. A. M. LOKYEA—I have been troubled with Rheumatism for the past twelve years, my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty get around. Since last spring I have been taking your "Unk Wood Remedy," and find myself much improved. The swelling and pain in said my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

SATURDAY MORNING, JULY 29, 1871.

CITY.

INDIANS TO BE REMOVED.—We are glad to be able to say that measures are in progress for the removal of the Indians who are now and have been such an unmitigated nuisance, at the north end of the city. Superintendent Meacham has the authority to Major Magone and O. A. Bristow to remove all vagrant and disorderly Indians found at or near Oregon City or Portland, who are in violation of law. All persons who are employing Indians about from their reservations should be aware that a permit are liable to be punished. Those who may own Indians for work, should settle with them at once, as Lo is to travel. We have been informed by the gentleman above named, who has made a careful examination of all the camps and villages, that out of forty-four Indians now found at three belong in Oregon. A few belong on Lewis river, some on the Sound, and the rest in the Klikitat, Simcoe and Spokane country. The Oregon Indians will be taken at once to their reservations, and the others will be landed in Washington Territory with an admonition to "vamose git." Steps will be taken to induce those in Washington Territory to look after their own Indians and keep them at home. Major Magone and Mr. Brown have authority to treat the Indians rent, and they will do it. Yesterday John Wesley, a well known character as far as general years, was putting on very extensive airs, and trying to prevent the measures of Messrs. Magone and Brown; he was finally arrested and chucked into jail where he will remain till the others are disposed of, and all will heartily rejoice at the near relief from the Indian nuisance.

SPECIAL CHURCH NOTICES.—Rev. C. C. Stratton will preach this (Saturday) evening at the Taylor street M. E. Church, and to-morrow morning at 11 o'clock.

Rev. Mr. Fridrichsen will preach in Norwegian to-morrow afternoon, as usual, at the new Lutheran Church, at 3½ o'clock.

Rev. C. W. Shaw will preach to-morrow morning at the Hall street M. E. Church, and to-morrow evening at the A. M. E. Zion Church, at 7½ o'clock.

Rev. C. C. Stratton will preach in Hall street to-day, at 11 o'clock; and organize the quarterly conference of that charge immediately after. The quarterly conference for Taylor street will be held at 2 P. M. To-morrow the usual quarterly services will be held in Taylor street Church in the morning and in Hall street in the evening.

There will be preaching at the County Hospital at three o'clock to-morrow afternoon and regularly hereafter, each Sunday afternoon.

The members and friends of St. Stephen's Chapel are hereby respectfully informed that there will be no service on Sunday, the 30th inst. Sunday school as usual at half past 9 A. M.

AN ACHIEVEMENT.—Mr. E. T. Coleman of this city has, we are told, drawing some illustrations for a new book which Dr. Loryea is about to publish. We have not examined these illustrations, but we are told by the *Herald* that "The picture is allegorical and represents the resources of Oregon. One portion represents the country, with its growing fields of grain and fruit, and the next is Autumn, with its rich tinting. Winter and is nipped from its by the piercing cold." Now, that dog was of the "allegorical" frontispiece—if it has such a feature—must be considered an achievement as is a caution to purpose. Any improvement we could possibly suggest would be another figure in the foreground—an Indian or a man with an umbrella, in the act of applying the "Unk Wead Remedy" to the dog's tail.

ARRIVED.—The bark *Skiddaw* arrived yesterday from Tacoma. She has been detained something more than a week since she arrived off the Columbia, for want a of pilot, till Monday, and on two or three days for want of a tug to get in the river. The steamer *Josie McNear* went after her, but the great weight of the vessel and adverse winds of Thursday were too much for her. Yesterday the *Fannie Troup* also went for her, and between the two, she was towed in. The *Skiddaw* has over a thousand tons railroad bars and several tons of bolts, nuts and fish bars. The duties on this cargo will amount to something over $17,000. The vessel is now alongside the O. & C. R. R. wharf.

DETAINED LETTERS.—The following letters are now in the Post Office at this city, for non-payment of postage:

J. F. Kelly; Turners, Oregon.
Cleveland, James F.; San Francisco.
Cox, C.; San Francisco.
Globe Mutual Life Insurance Co; New York.
Hall, Rob't; San Francisco.
Johnson, Capt.; Shoalwater, W. T.
Morris, Robert; Dayton, Oregon.
Silvers, Mrs. J. D.; New York.
Wilson, John; Portland, Oregon.
Wood, E. P. or Walt; Harrisburg.
Stebbins, Miss H.; Belleven, Oregon.
Wingfield, G. W.; Newby, Oregon.

A WOMAN LECTURER AMONG US.—The *New York Tribune* says: "Mrs. Carrie E. Young, of the *Pacific Coast Journal*, is at present lecturing in Oregon. A letter from her pen appears in another part of this paper. She will probably be in Portland in a short time. She is a popular lecturer, and all should hear her."

OMISSIONS.—Some time ago we mentioned the fact that an omnibus line on Front and First streets was talked of. We now learn that Messrs. Cornell and J. T. Miller have ordered a couple of omnibuses from the East, and that as soon as they arrive the line will be established.

DEGREE OF BUILDINGS.—Several of the buildings now in progress are going up very slowly, in many of the workmen having to wait for the roof work. There are probably foundries enough, but they have not capacity enough to keep up with orders.

VESSEL ARRIVED.—A passenger from Astoria informs us that on Wednesday evening the tug had towing a vessel in, the name of which could not be made out from shore, on account of hazy weather. Probably the *Whistler*.

PRECAUTIONARY.—The Chief Engineer is still engaged in examining flues and stovepipes about town, with a view to the removal of such as are not safe. He informs us that he frequently finds stove pipes, that are dangerous.

CIRCUIT COURT.—The Circuit Court for Multnomah county will be in session again to-day, after a short vacation. Not much business is remaining upon the docket.

PASSENGER DRIFT.—It is stated by a gentleman who has kept an account of the arrivals and departures of passengers, that the arrivals are two to departures *three*.

FIGHTS.—Yesterday there were about half a dozen rows, for which the parties engaged were all fined. It was not a very good day for rows, either.

NEW POST OFFICE.—A post office is about to be opened at the town of Halsey, on the O. & C. Railroad.

A NEW VESSEL FOR PORTLAND.—The bark *Atwater* cleared at San Francisco yesterday for this port.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND STATE NEWS.

[From the Advocate.]

The new Congregational Church, of this city, cost about $16,000. Sixteen thousand of this has already been donated by the members and friends of the church.

The Wallsburg circuit has enjoyed a year of great prosperity. Rev. J. L. Adams, the pastor, has received more than one hundred into the church on probation.

The new Congregational Church, of this city, Rev. G. H. Atkinson, pastor, will be dedicated with appropriate services, at 3 o'clock P. M., on Sabbath August 6th. The dedicatory sermon will be delivered by the pastor.

We learn that Mr. B. Holladay has with great liberality donated lot No. 5, block 101, on the Avenue, Holladay's Addition to East Portland, to the M. E. Church, for Church purposes. It is said to be a very desirable location.

The camp-meeting at Willbolt's Soda Springs, on Rock Creek circuit, on Saturday and Sabbath last, was well attended, and proved very profitable. One joined the church on probation, and three were received into full connection.

The old Congregational Church, originally on the corner of Third and Jefferson streets, was dedicated by Rev. Prof. Lyman, of Forest Grove, on the 1st Sabbath of June, 1851. Prof. Lyman also preached the sermon at the dedication of the vestry of the present new church, on the 1st Sabbath in July, 1871. He will doubtless assist at the dedication of the main building on the first Sabbath in August.

Arrangements have been made with the Oregon and California Railroad Company, and with the California and Oregon Stage Co., and also with the West-side Stage Co., by which members in attendance upon our Conference at Portland, to commence on the 9th of August, can travel to and from Conference at half the regular fare on each of these lines. The O. S. N. Co. and the P. T. Co. always allow all ministers to travel at half price on their boats.

The Hall street M. E. Sabbath school will give a literary entertainment Wednesday evening, August 2d, according to the following:

PROGRAMME.

1. Singing by the School—Volunteer Song.
2. Prayer—Rev. C. W. Shaw.
3. Music by Class—Battle Song.
4. Object Lesson—Infant Class.
5. Quartette—Lift me Higher.
6. Recitation—Katie Fields.
7. Song—Gliding Away.

INTERMISSION.

During which ice-cream will be served.

1. Song—by Miss Millie Bonnett's Class.
2. Solo—"The Drunkard's" three scenes.
3. Grand Chorus—"Over There."
4. Dialogue—Our Festive Queens.
5. Benediction.

The dedication of the new Congregational Church, corner of Jefferson and Second streets, will take place August 6th, at 3 o'clock P. M. The exercises of the occasion will be according to the following programme:

1. Voluntary—Organ; 2. Anthem; 3. Reading Psalm and Invocation; 4. Hymn; 5. Reading Scriptures; 6. Prayer; 7. Hymn; 8. Sermon; 9. Anthem; 10. Dedicatory Prayer; 11. Anthem; 12. Benediction.

Evening Service of Praise.—1. Voluntary—Organ; 2. Anthem; 3. Reading Psalm; 4. Hymn; 5. Prayer of Thanksgiving; 6. Hymn; 7. Brief Address; 8. Hymn; 9. Service of Praise; 10. Hymn; 11. Prayer; 12. Doxology and Benediction.

The friends generally are invited to attend the above services.

EAST PORTLAND MATTERS.

[From the Era.]

Last evening the down train brought the machinery for Lawrence, James & Co.'s steam saw mill, soon to be in operation in this city.

Messrs. Abbott & Company, contractors on N street bridge, have been energetically at work this week framing the timbers, and will have them up next week. The bents on J street are up, and next week the north half will be completed from the railroad track to Water street.

Two Portland sneak-thieves visited our side Wednesday, equipped with "locks," "straps," and other auxiliaries to their profession. They professed to know, and "have seen before, somewhere," every one they met, but whether they succeeded in duping any of our country people we are unable to say. Our Marshal should take these fellows in hand.

The time having expired in which the contractors had to finish the fill on Second street, they have asked the Board of Trustees to extend the same. A petition from quite a number of property holders against the extension of time was presented to the Board, and the whole matter was referred to the Committee on Streets, who, no doubt, will recommend the proper action for the Board to take, under existing circumstances. Should the extension of the contract be refused, a heavy loss will be sustained by the contractor, and the work on the street already done will be no good to any one.

The varied and extensive improvements ordered by the Board of Trustees of this city, and which are now being vigorously pushed toward completion, are the subject of surprise and speculation from citizen and stranger. Commencing at Stephen's Addition, we find contractors busily engaged in opening U street for the convenience of that portion of the city; this connecting with the Portland and Silverton plank road gives free communication with Fourth and J streets, the former of which will connect with Holladay Avenue, forming a completed line of streets through the city of East Portland.

[From the Sentinel.]

Last Sunday, July 23d, Most Rev. F. N. Blanchet, D. D., raised the Rev. John Heinrich to the Order of Priesthood, at the Cathedral Church in this city. The solemn service commenced at 10 o'clock A. M., with a Pontifical High Mass, celebrated by His Grace the Archbishop, who was assisted by Very Rev. J. F. Fierens, V. G., as Assistant Priest; Rev. F. N. Blanchet, of Jacksonville, as Deacon; Rev. P. T. Gibney, of Corvallis, as Sub-Deacon, and Rev. Fathers Piette and D'Cruse, Masters of Ceremonies.

BUSINESS NOTICES.

MERCANTILE AGENCY.—Mr. J. H. Dyson having been associated with Messrs. Hope, McKillop & Co. at San Francisco during the past five years, is thoroughly conversant with the business in all its branches, and the Agency will, as heretofore, we are confident, give perfect satisfaction to all who may entrust their collections or other business with him.

REAL ESTATE AGENT.—Mr. G. W. Fisher, having resigned the management of the Mercantile Agency, will still continue in and attend to the Real Estate business in all its branches, and will be found at the office of Dean Bro. & Fisher, Real Estate Agents, 92 Front street. He is also Agent of the New England Mutual Life Insurance Company.

MR. B. L. STONE has just finished refitting and enlarging his jewelry store. It is now one of the most convenient and attractive stores in the city. He has also enlarged his stock, and now offers for sale one of the largest and finest assortments of clocks, watches, jewelry, silverware, spectacles, &c., &c., ever brought to this city. He invites his friends and patrons to give him a call.

ST. CHARLES HOTEL.—On and after the 1st of August the scale of prices at this hotel will be reduced. The figures are given in an advertisement which appears new this morning. No one who has ever patronized this hotel but will testify that the accommodations and conveniences are first class and not excelled by those of any hotel on the northern Pacific coast.

Last Sunday a man named Cook was murdered near Fort Nisqually. His body was found slightly covered with earth. Suspicion rests on a man with whom he had a difficulty a few weeks before.

A Perilous Season.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general derangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of cheap and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

Wednesday, August 9, 1871,

In their New, Commodious and Beautiful Building, just completed at SEMINARY PARK, BROOKLYN.

As most of the able and experienced corps of Teachers, with valuable accessions, as well as the fine classes of pupils now pursuing their studies remain with them, the school remains essentially unchanged with greatly increased facilities for physical comfort and intellectual culture, without additional expense. Mr. and Mrs. Mills believe they can accomplish much more for their pupils in the future than they have been able to do in the past, and that the Institution offers unrivalled advantages for a thorough and finished education.

M. GRAY,

TAKES GREAT PLEASURE IN ANNOUNCING TO THE CITIZENS OF THE STATE OF OREGON THAT he has this day opened a BRANCH of his extensive and well-known San Francisco MUSI

Too Late.

BY MISS HUSTON.

Could ye come back to me, Douglas, Douglas,
In the old likeness that I knew,
I would be so faithful, so loving, Douglas,
Douglas, Douglas, tender and true.

Never a scornful word should grieve ye;
I'd smile on your least command obey;
Sweet as your smile on me shone ever,
Douglas, Douglas, tender and true.

O to call back the days that are not!
My eyes were blinded, your words were few;
Do you know the truth now, up in Heaven,
Douglas, Douglas, tender and true?

I never was worthy of you, Douglas,
Not half worthy the like of you;
Now all men beside seem to me like shadows—
I love you, Douglas, tender and true.

Stretch out your hand to me, Douglas, Douglas,
Drop forgiveness from Heaven like dew;
As I lay my head on your breast, Douglas—
Douglas, Douglas, tender and true.

The chick in the Egg.

The hen has scarcely sat on the egg twelve hours, when we begin already to discover in it some lineaments of the head and body of the chicken that is to be born. The heart appears to beat at the end of the day; at the end of forty-eight hours two vesicles of blood can be distinguished; pulsation of which is very visible. At the fiftieth hour an auricle of the heart appears, and resembles a face or noose folded down upon itself. At the end of seventy hours we distinguish wings, and on the head two bubbles; for the brain, one for the bill, and two others for the forehead and hind part of the head; the liver appears towards the fifth day. At the end of one hundred and thirty-one hours, the first voluntary motion is observed. At the end of one hundred and thirty-eight hours, the lungs breathe and stomach become visible, at the end of one hundred and forty-two, the intestines, the loins, and the upper jaw.

The seventh day the brain which was slimy, begins to have some consistence. At the one hundred and ninth hour of incubation the bill opens and the flesh appears in the breast. At the one hundred and ninety-fourth the sternum is seen, that is to say, the breastbone. At the two hundred and tenth the ribs come out of the back, the tail is very visible, as well as the gall-bladder. The bill becomes green at the end of two hundred and thirty-six hours; and if the chick is taken out of its covering it evidently moves itself. The feathers begin to shoot out towards the two hundred and fortieth hour, and the skull becomes gristly. At the two hundred and sixty-fourth the eyes appear. At the two hundred and eighty-eighth the lids are perfect. At the three hundred and thirty-first the spleen draws near to the stomach, and the lungs to the chest. At the end of three hundred and fifty-six hours the bill frequently opens and shuts; and at the end of four hundred and fifty-one hours, or the eighteenth day, the first cry of the chick is already heard; it afterwards gets more strength, and cries continually, till at last it sets itself at liberty by opening the prison in which it was shut up.

Thus it is by so many different degrees that those creatures are brought into life. All these progressions are made by rule, and there is not one of them without sufficient reason. No part of its body could appear sooner, or later without the whole embryo suffering, and each of its limbs appears at the proper moment. How admirably is this formation—so wise, and so invariable in the production of the animal—the work of a Supreme being.

Injudicious Free Trade.

One of the very worst economies of time is that filched from necessary sleep. The wholesale but blind commendation of early rising is as mischievous in practice as it is arrogant in theory. Early rising is a crime against the nobler part of our physical nature, unless it is preceded by an early retiring. Multitudes of business men in large cities count it a saving of time if they can make a journey of a hundred or two miles at night by steamboat or railway. It is a ruinous mistake. If never fails to be followed by a general want of well feeling for several days after, if, indeed, the man does not return home actually sick, or so near it as to be unfit for a full attention to his business for a week afterward. When a man leaves home on business, it is always important that he should have his wits about him; that the mind should be fresh and vigorous, the spirit lively, buoyant and cheerful. No man can say that it is thus with him after a night on a railroad, or on the shelf of a steamboat. The first great receipt for sound, connected and refreshing sleep is physical exercise. Tell us the price of sleep. We caution parents particularly not to allow their children to be waked up in the mornings; let nature wake them up; she will not do it prematurely; but have a care that they go to bed at an early hour; let it be earlier and earlier, until it is found as they wake up of themselves in full time to dress for breakfast. Being waked up early, and allowed to engage in difficult or any studies late and just before retiring, has given many a beautiful and promising child brain fever, or determined ordinary ailments to the production of water on the brain.—*Journal of Health.*

Seventeen Hundred Years in the Oven.

—One house in Pompeii had evidently been in a state of repair when the volcano-storm buried it. Painters and decorators and cleaners were masters of the situation. The household goods were all in disorder, and the family, if not out of town, must be undergoing that condition of misery which spring cleaning and other like infections inevitably entail. Painters' pots and brushes and workmen's tools were scattered about. Tell-tale spots of whitewash starred wall and floor. Such domestic implements as pots and kettles had been bundled up in a corner all by themselves, and the cook was nowhere. Dinner, however, had not been forgotten. A solitary pot stood simmering (if ever it did simmer) on the stove. And (start not, for it is true) there was a bronze dish in waiting before the oven and on the dish a suckling pig, all ready to be baked. But the oven was already engaged with its full complement of bread. So the suckling pig had to wait. And it never entered the oven, and the loaves were never taken out till after a sojourn of 1,700 years. They had been cooking ever since November 23d, A. D. 79. M. Fiorilli has them now in his museum at Pompeii, 21 of them, rather hard, of course, and black, but perfectly preserved.—*Leisure Hour.*

Protection vs. Free Trade.—The Philadelphia *Press* says:

England, who discarded the protection which had established her industries after it was no longer of benefit to her, is the mother of the so-called free trade theories. During the twenty years prior to 1860, "the whole of Europe and America," says Sir Edward Sullivan, "with some trifling exceptions, have increased their trade far more rapidly than England has." France, Switzerland, Belgium and Austria show trade returns, through their Boards of Trade, far more pleasing to each of those nations than England has been able to show for herself. France is thoroughly a protective nation. England boasts herself a free trade nation. The bullion in the Bank of France in 1869 was sixteen millions higher than it was in 1863. The bullion in the Bank of England was three millions less for the same year than it was in 1853. The balance of trade has always been, for twenty years previous to the late European war, much better in France than in England. The French masses, too, have had within their grasp more real comforts than the British working people. So much for free trade.
